Mr. Jesse Huff
c/o Radio Results Network, Inc.
524 Ludington Street
Suite 300
Escanaba, Michigan 49829

Dear Mr. Huff:

This letter is to complement your company for creating a superb radio network for your customers to listen to and advertise with. Michigan Broadband is a 107-year-old regulated local exchange carrier serving over 5,000 clients from 19 exchanges in Michigan.

Recently, our company ventured outside our regulated areas and decided to begin with the Escanaba market; our 20th exchange. Although we have been serving many clients for many years, no one in Escanaba really had ever heard of us.

Well that all changed when we met Jay Fisher. Using radio, Jay put together an outstanding marketing program that introduced our company and products and created the name recognition we were seeking. Now, many of the businesses in this community enjoy next generation communication systems in part, thanks to RRN. The initial and ongoing campaigns are truly audible art in motion, creating a better way of life and building strong business fundamentals. It's not just a radio network; RRN is the fabric that binds all of our communities together in commerce.

Radio Results Network is truly a prodigy of ideals that others are sure to follow.

We wish you and your team of professionals the very best in your future endeavors and thanks for being there for all of us.

Best Regards,
Michigan Broadband Services

David C. Hoover
President & General Manager
